### Key Points for Addressing Driving & Dementia:

- Driving is a PRIVILEGE, NOT a Right
- Families can make a difference!
- Health Care Providers can make a difference!!
  - Screen for Red Flags for impaired drivers
  - Make a strong recommendation for/against driving cessation
  - Schedule follow-up to monitor for depression/functional decline in those who are no longer able to drive
- Reporting impaired drivers in WI is **Recommended** but not legally required
- Many great resources available on the Wisconsin DOT and Alzheimer's Association websites
