

How to Submit an Assignment on Google Classroom

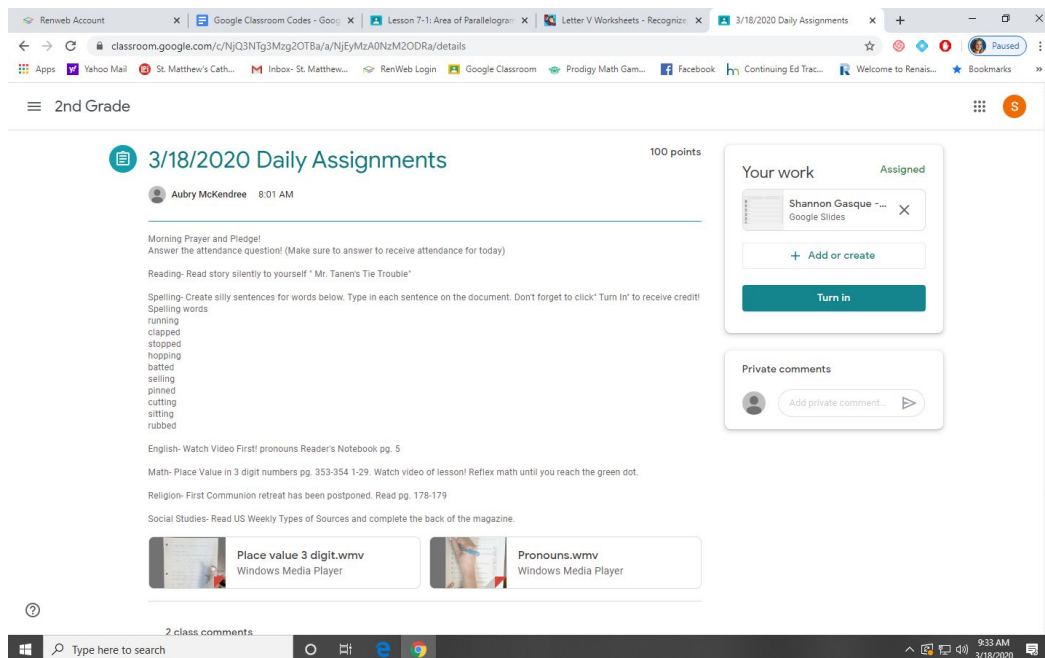

1. Once in the Google Classroom of choice, you will be taken to the “Stream” page. This is where you will see announcements and anything else that has been posted. Kinda like Facebook has a feed.

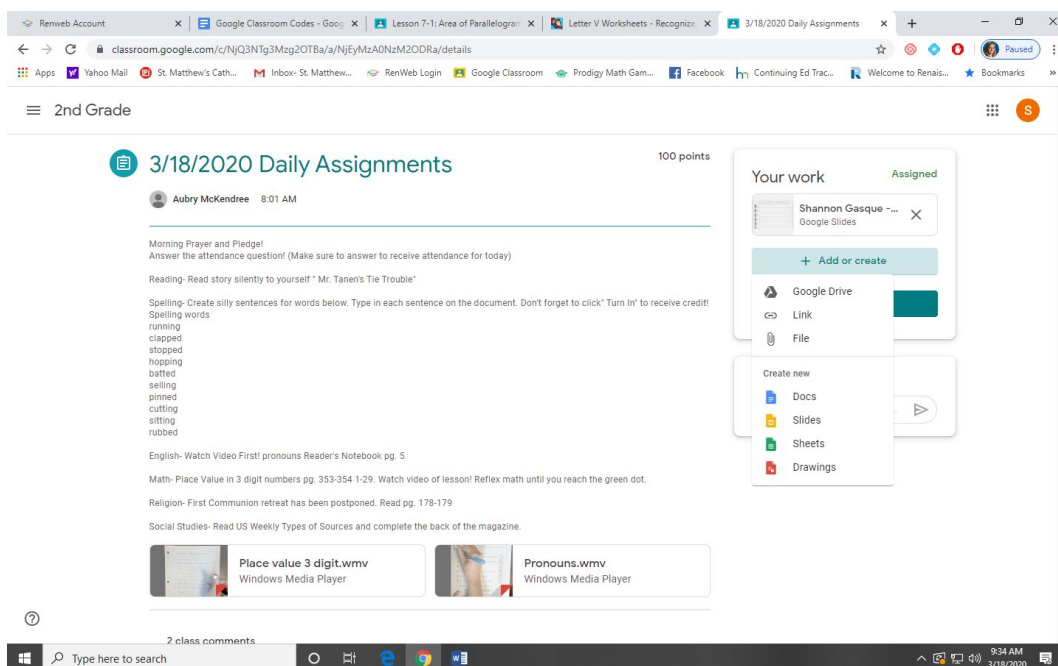

2. You need to click on the assignment in the feed OR click on the “Classwork” tab in the top middle. Once you do, you will be taken to the assignments page. This will have all assignments thus far. Click on the assignment needing to be completed. It will expand like this.

3. Click on “View assignment” in the bottom left hand corner to pull up the full details, all materials, and allow you to “submit” your work. It will look something like this.

4. If you have been asked to attach a picture or document, you will click on the “+ Add or Create” button off to the right. It will bring up a menu and this is where you will choose your attachment.

5. Once you have attached everything you need to, click the teal “Turn in” button.
