

Building Project Update – Parishioner In-kind Services and Materials

We continue to move forward with the next steps of our building project while the capital campaign for the project is still underway.

We have done so because of a desire to remain on schedule to start construction in spring 2018. The Building Committee is working with our construction manager to identify and receive pricing for various elements of the project in order to develop a cost estimate and start the formation of the construction team.

If you are interested in providing services or materials for the project, please email your inquiry to: stgabrielfeasibility@gmail.com. Please include your contact information and a description of the services or materials you are interested in providing. Because of the nature of this project, those working on the construction site will need to be an organized business with current insurance coverage. We will identify you to the construction manager so that you can be provided information about how you can help. Please pray for the success of our capital campaign and guidance from the Holy Spirit about your personal support of it with your time, talent and treasure.
