

ST. JOSEPH CONGREGATION

Faith on Center

Hello Formation Families,

The formation year of 2020/21 is here! I would like to share with you some of the information that I have now. Please understand that the calendar for the upcoming formation year is a projection if all things are "normal." I am also working on some alternatives if we cannot have formation in the format that we know. In all honesty, I am waiting on updates from the archdiocese and it's matrix on how to move forward with formation, and when I have a clearer picture of what's to come, I'll be sure to update you. Please note, the service hour requirements for youth ministry and Confirmation have been removed for this year. I wish that this letter could be extremely detailed, but unfortunately, this is the context we are living in right now; in the military, we call this "hurry up and wait." I am confident that as we move forward we will see some normality return, but most importantly I am confident that God is in control.

In Christ,

Thadeus T. Brooks
