

## **A Vision Statement**

Catholic daily living with all of its imperfection and struggles, its mercies and joys, its beauty and its loving nurturing is where we first encounter Christ and his love for us. It is within family that we experience a Christian lifestyle. By the joining of the family home and the home of the Church we and our children learn by example and experience what it means to follow Jesus Christ crucified.

***Bite Size Catholic Living*** is intended to build on the foundation of the family experience as the core of a Christian life growing in the midst of the larger Catholic community. It seeks to accompany and support parents in their own faith and holiness so as to feel confident in passing on the Catholic Christian faith and lifestyle to their children through everyday experiences. The “domestic” Church then becomes the building blocks for the Universal Church of Jesus Christ.
