

Adoptive & Foster Parent Connect Group

Why:

73% of Adoptive parents report that other adoptive parents were their first source of support when faced with questions or challenges regarding their adoptive children. Connect groups provide support and allow space for parents to build relationships, and share the adoption/foster care journey. The content of this 13 session group will be based on a collection of educational videos on the *Empowered to Connect* website, which is a faith-based nonprofit that offers adoption and foster care resources based in the concepts of Trust Based Relational Intervention(TBRI).
