

SAFETY RULES

KINDERGARTEN - 2nd GRADE

1. Know your full name, address, and phone number.
2. Only use a cell phone or computer when your parent or guardian has given you permission. Only visit sites or play games that you have permission to use.
3. The internet is NOT a safe place to make new friends. If you play online, you should never talk to people online that you do not know in real life.
4. No one on the computer should talk about their private body areas or ask you about your body. If this happens, tell your parent or another safe adult right away.
5. No one should ever take pictures or videos of the private areas of your body or show you pictures of people that show their private body parts. If this happens, tell you parent or another safe adult right away.
6. A stranger is anyone that you and your parents don't know. Do not tell strangers where you live.
7. Never get into a car or even close to a car of a person you do not know. Never go anywhere with a stranger, even if they seem nice!
8. Sometimes strangers say certain things in order to get kids to come with them. Never go with a stranger, even if they say their pet is lost, they need your help, or your parent is hurt. If an adult tells you something like this, get away and tell your parent or another safe adult.
9. We must treat others with respect. We always give others privacy in the bathroom or when they are changing clothes.

10. Remember, if your body gives you clues that something just isn't right,
SAY NO, GET AWAY, and TELL a safe adult!
