An Answer to the Claim:
“Pro-life Denies a Woman's Choice”

Some people say that pro-life denies a woman's choice and the “pro-choice” movement cares more about women. The truth is the reverse of this. “The pro-choice” movement is the group that denies a woman’s choice and the pro-life movement is the group that actually cares about women.

Pro-life offers many options. Parenting is the best and most natural option. Pregnancy centers, nowadays, even have rooms for a woman and her child to stay in if they have no other welcoming home. Adoption and foster care are two more great options for women who don’t want to abort but feel like they can't care for the child. At least that child will have life and a loving family. “Pro-choice”, on the other hand, only offers abortion. Abortion causes so much heartbreak for women, including guilt depression, low self-esteem, and suicidal thoughts and deeds. So, if you really care about women having choices, pro-choice is definitely not the way to go.

When a woman chooses abortion, her choices regarding the life of her child are gone for good. When she chooses life for her child, her choices go on and on and on. They never end. There are choices to be made every day. A woman should no more have the choice to have her child brutally pulled apart in the womb by a “doctor” than to murder her next door neighbor. These are innocent BABIES! We are the United states of America, and, as Americans, we need to protect the innocent. That means ending legalized abortion.

The so called “pro-choice” movement pretends to care about woman having choices, when all they really care about is getting money from horrifically killing babies in the womb. The pro-life movement is the group that really cares about women. Pregnancy resource centers offer so much for women and babies. They give away diapers and clothing and many other useful items. They even offer healing choices for women who have had an abortion and are suffering the sad consequences, like different retreats for bringing them to God to heal the wound that abortion made.

The claim, "pro-life denies a woman's choice", is completely inaccurate, as the pro-life movement obviously makes sure that women have many life affirming choices. Many woman report that they felt like abortion was their only option, that means that "pro-choice" is not offering "so many choices" like they claim to do. I believe that the "pro-choice" movement should be called "pro-death", because really, that is the only thing that they offer: death.

I feel badly for women who give up the choices that come with having a child by having an abortion, and I hope that they will find healing love through Christ.
