Teacher's Corner

Ms. Kate Reynolds - Autism Program

You wouldn't believe all the amazing things that are happening in the Autism Program this year! Besides all the hard work we do on a daily basis, we are also having lots of fun. Together we walked to the Kettering Fire Department and took a tour of the entire building. We learned about what firemen and women do and even got to listen to the very, loud sounds of the siren. In the fall we went on a field trip to the Learning Tree Farm. There we learned information about many of the farm animals and got to pick our own pumpkins to take home. But we all agreed that the bus ride was the best part of that trip! We took a self-guided tour of the Air Force Museum. Did you know that there are over 360 aircraft and missiles on display there? We actually walked through the aircraft that took President and Mrs. Kennedy to Dallas on 22 November 1963—the day of the President's assassination! We also spent an afternoon together apple painting, peeling apples and making applesauce. We really enjoy our new sensory room and are so appreciative of the people who made this space possible for us. We have done some pretty amazing things so far this year. We can't wait to see what's next!

Summer learning loss puts students at a serious disadvantage. This is when skills and knowledge are lost over the summer months, causing students to move backwards instead of progressing.

By spending just **minutes a day** with *Summer Solutions*, students get the practice they need to keep moving forward. It was designed to help students return to school after summer break confident in the skills they've already learned and ready to master new ones.
