

Hearing that there is consideration of having a part-time principal, why is this a good option? What are the pro's and con's of this action?

First of all, possibility of a part time principal is ruled out now (part time principal was a mistake by the H R department of the education office). We considered a teaching principal based on three components: consultation with the education office, our financial situation, and the principal's evaluation that our school was over staffed. If we could hire a teaching principal, who would be in the building full time, and looked into rearranging the existing staff, we could save a considerable amount of money.

I do not think it was a bad idea, as we would still be having a principal full time in the school, but could cut cost.

Are there Baptisms turned down due to a family not being an active donator to the parish? If so, why?

No baptisms are turned down because the family is not practicing or donating. Baptism is the right of the child.

Why is there a message from the church that the parishioners do not want to support the school?

There has never been any official message from the parish that the parishioners do not want to support the school. But some have told me that they are considering stopping their contributions to the parish as every dime was spent on school at the cost of the parish.

What is the function of each parish committee? And what is their authority?

The only function of each committee is consultative. Committees have no authority.

We hear that the church is turning down donations if there is a specific use. Is this true? If so, why? How can we change?

We welcome all unrestricted donations. Some donations may be turned down if the specific intention is not a parish need. For example, if a family is interested in donating a statue to be put inside church in memory of its loved one... that is their need, not of the parish; donation might be turned down if it would cost additional expenses from the parish; if someone donates a key board, we might say no, thanks, as that may not be useful to us.

If the question was about a donation for chrome books for the school, I only asked to put that on hold until we had a better picture of school consolidation
