

## Assistance for the Elderly

In response to the covid-19 pandemic and for people who are homebound, the Ford and Iroquois County Health Departments are wanting to help those over 60 years old needing assistance. This pertains to providing: groceries, medical supplies, or hygiene products. If you are in need of these items, call the county (Health Dept.) office that you live in.

**Ford County Health Dept.                      217 379-9281**

Speak to: Page or Lana

**Iroquois County Health Dept.              815 432-2483**

Speak to: Emily Shay

The items that you request will be brought to our local towns and then distributed by a volunteer from our church community. The items will be brought to your front door and the individual delivering it will ring the doorbell and then leave. This will allow individuals to avoid contact with anyone to maintain the social distancing requested of us.

If anyone is interested in helping deliver these items, please contact Fr. Dong (217 379-4033) or Dan Schneider (217 781-2411).
