

## *Capital Campaign Update*

*On behalf of the parish leadership, I would like to thank everyone who participated in the survey/interview process for the Capital Campaign Feasibility Study for St. Joseph. All of your input has given us a great deal of insight into the needs of the parish and it's helping us move forward with exciting new plans for the future.*

*The feedback from this process has led us to consider a new option that our leadership feels can address all the needs in the best manner possible. This option incorporates many of the concepts and ideas originally discussed, while allowing us to potentially save money in the long run, and eliminates some of the bigger concerns raised by parishioners.*

*We want to do our due diligence on this new option over the summer months to further develop this plan. We will be hosting town hall meetings in the early fall to share the updated plans. At the town hall meetings you will be given the opportunity to share your input before launching our capital campaign.*

*Please continue to pray for the parish leadership team as we spend the summer researching this new option. We look forward to presenting our plans to the parish this fall and are optimistic that we can develop a plan that will meet the needs of the parish now and into the future.*

*Your Pastor In Christ,*

*Fr. John Marconi*
