

Why Choose Catholic Education?

"To be rooted in God allows the children to grab onto the potential to excel in all aspects of life. A Catholic education being one of the aspects, will take our children into the future with an intelligent mind, but more importantly a beautiful heart. I would not have had it any other way than to send the youth of my family to a Catholic school. The roots they establish will keep them connected to a God that they can turn to and keep them stable in a sometimes unstable world." *Kathy Jehn*

"I think Catholic education is important because God is in the center of all we do, and all we teach our children."

"Being new to the school, not too long ago we were in your shoes, making the decision as to where to send our child for schooling. After interviewing several private and public schools, we found reassurance and peace at St. Anthony School.

From weekly emails regarding school events, to weekly notes from my child's teacher, I am increasingly impressed with the open communication between staff and parents. Family involvement activities have encouraged my Preschooler to want to attend St. Anthony.

Concerned about size? I can assure you that the size of the school is one of the best attributes. When my child has excelled in a subject, he has been challenged to progress. When needing a little extra help in another area, my child has received more 1:1 interaction to get him on track. This had been rewarding because the teachers have a smaller class with a more focused curriculum to the student's needs. One can be certain, that the size of the school has led to its excellence.

Most importantly, our son is learning the foundation of living a value-based life. Being centered around God, students learn how to conduct their behavior, work through good choices, while learning from poor choices. We are certain that St. Anthony's mission of being "Rooted in God," in addition to family involvement, will assist in helping our children become morally aware and accountable throughout their lives.

While deciding on a school for your child, know that this school has been the best kept secret around! We feel blessed to have found such an academically sound and morally encouraging school. Best wishes on your search."

Stephanie Sullivan

"Parents entrust their children to a special type of faculty and staff at a Catholic school. The teachers constantly strive to relay a message that in all studies of life, carry yourself and give of yourself in a Christian manner."

"Catholic education is important because in a Catholic school the whole child is educated. Not only are they challenged and educated intellectually, but also spiritually. Conversations about God are encouraged, and the children are called to embrace and live the faith. How wonderful!"

"Open your child's heart and their mind will follow. Faith, dedication, and a commitment to academic excellence -

Welcome to St. Anthony School!"

St. Anthony School – Now Enrolling!

Did you know St. Anthony School extends in-parish tuition to all parishes without a parish school?

The first 10 registered kindergarteners will receive a \$250 tuition voucher for the 2014-2015 school year!
