

Bell Tower Commemorative Brick Path

A 3D architectural rendering of a proposed brick path project. The path, shown in reddish-brown, winds through a green lawn area. In the center of the path stands a tall, dark brown wooden bell tower with three yellow bells hanging from it. The tower is surrounded by a low stone wall. In the background, there is a large, white, rectangular building with a flat roof. The entire scene is set against a light blue sky. The path starts from the bottom left, curves around the base of the bell tower, and then continues towards the right side of the image.

Continuing our 175th Year Legacy, 1 brick at a time.

Our refurbished Church bells are to be installed in a new bell tower. The location will be between the SE corner of the Church and the corner of the driveway/parking lot. Walkways to the tower will provide access to a beautiful outdoor gathering space. This space will be decorated with the Memorial Bricks of friends and families alike. The funds from the brick purchases will be utilized to help with project completion and future maintenance of the bricks and bell tower.
