For the 2020-2021 school year

Plans for Re-Opening

The ECS Team is working diligently to develop a re-entry strategy that allows for flexibility and transparency while prioritizing the health and safety of all our community. We are currently preparing the physical campus to open the school year with students in August in consideration of local, state and federal guidelines and recommendations.

This document contains information about our four-tiered Return to School Plan, RTS, that will be referred to throughout the 2020-2021 school year. Over the coming weeks we will publish additional details and updates to this document as we make specific decisions and plans regarding on-campus modifications. We anticipate starting the school year in Level 2 of the RTS.

We are preparing for possible waves of interruption to on-campus learning in the event of a government-ordered closure or to complete necessary cleaning due to a positive case on campus. If an interruption of physical operations occurs, a shift to distance learning could occur immediately.

On Campus

While specific decisions and plans about the upcoming school year will be finalized over the next several weeks as more information and updated public guidelines are issued, we wanted to share the strategies that will currently be practiced.

They include but are not limited to:

1

Frequent hand washing by faculty, staff and students.

2

Athletics governed by guidance from DOSA and in consultation with coaches.

3

Guidelines for capacity limits and cohorts to allow for social distancing in spaces such as classrooms, gym, etc. Changes to campus visitors and parents permitted on campus

4

Masks worn by faculty and students when moving around campus halls, mass and common areas.

5

Temperature checks when students, faculty, staff, parents, volunteers & visitors arrive. Anything above 100.4 students will be sent home.

6

Frequent sanitization and cleaning between classes and after school.

7

Avoid greeting people by touching each other.

ON CAMPUS LEARNING

Your children will begin the 2020-2021 academic year on campus with the expectation that specific health and safety procedures will be required. In the event that a government body closes schools, or the campus must temporarily close for cleaning, students will shift to distance learning

DISTANCE LEARNING

Improved learning experiences to ensure past online success continues while incorporating better instructional models and exploring new resources; commitment to enhancing your child's spiritual and emotional well-being; we will be working on/with teaching tools for improved synchronous learning (live instruction) and help students learn better in asynchronous environments
