***Together in God's Name!***

Dear Parents and Students:

Well that was another chilly week! But we made it through, and had some good learning experiences. In physical science we studied different types of chemical reactions, and we had several small lab activities to engage hands on learning. We explored various chemical reactions and the signs those reactions give us.

In religion we focused on reviewing the main concepts of Unit 4 and preparing for Lent and our Ash Wednesday mass.

I would like to remind students that when they are absent for a day for whatever reason, assignments for their classes can be found on Google Classroom. If for some reason a student is unfamiliar with how to access and use Google Classroom to further his or her learning I am happy to help with that process. Staying on top of schoolwork, when out, if possible, will help keep students from falling behind.

Thank you to all the 8<sup>th</sup> graders who helped lead our prayer service, mass, and Stations of the Cross this past week. They did a good job. Once again, good job taking a leadership role 8<sup>th</sup> graders!
