I grew up in Chicago where I attended Catholic school. I graduated from Northern Illinois University with degrees in special education and elementary education. After teaching in Illinois and Iowa, our family moved to Wisconsin. I worked here in public schools prior to continuing my teaching career with the Archdiocese of Milwaukee Schools. I love to read, camp, bike, hike and spend time with my growing family.

As an educator, I believe that I must continually grow in my profession. This includes taking graduate courses, doing research on best practices in teaching, collaboration with other teaching professionals, and learning from my own teaching experiences. I believe in teaching that maximizes all learning styles and strengths. I love to learn and strive to instill that joy of learning in each of my students.

It is my responsibility to get to know each of my students and guide them to success. This includes learning each of their strengths and challenges along with helping students to develop a curiosity and a love for learning. Students will learn to become responsible for their choices in their learning.

The joy of teaching in a Catholic school is that I am helping develop the whole child—academically, socially, and spiritually. It is such a blessing to be able to share my faith with my students. Second grade is a very special year for the children. They will prepare for two sacraments, Reconciliation and Eucharist. It is such a privilege to be a part of this important year in my students' lives.
