As a product of 17 years of Catholic education, I have been drawn to teaching positions in which I can express my faith and use it to build deeper relationships with others. I am a very enthusiastic person who enjoys service-based learning. I enjoy sharing my knowledge of God and the Catholic faith with others; especially sharing my personal faith journey with the future of the Catholic faith – our youth. I have taught religious education both in Catholic elementary schools and in my parish's religious education program.

I believe that all children have individual needs that should be known and addressed by educators to ensure that students receive the best possible education. Throughout my teaching career, I have worked with students of various levels and ages and have incorporated the use of manipulatives, technology, audio and visual tools, and various grouping strategies to ensure that all students succeed in meeting their educational goals. I also believe that my faith can inspire and energize me to look outside of myself and be the hands and feet of God on earth.

I have always set high expectations for the students that I have been provided the opportunity to guide and assist through their our educational and faith journey. I ask the students to set personal goals during the first week of school and post these goals as a constant reminder that we need to work together to meet and exceed these goals. I provide the students with a safe and respectful environment where they can feel comfortable to take risks and learn from their mistakes. Students will learn that their educational success depends on their willingness to follow all class expectations which include completing their assignments, paying attention in class, participating in classroom discussions, and preparing themselves appropriately for assessments. Coming prepared to learn with the proper materials and a positive attitude is a requirement for all members of our classroom community.
