

SING HIS EVERLASTING ETERNAL PRAISE

Fifth Grade Flock in 2016/17

Monday, August 15

RELIGION- This week we are learning about the miracle of life and dignity for all.

LANGUAGE ARTS- We are continuing to enjoy *The Junction of Sunshine and Lucky*, though we are rapidly approaching the end. Our trash to treasure product is due tomorrow. How fun to see the interesting ways we are reusing our resources. Before the week is out we will begin new chapter books. These books will require work in a packet. Each day we should have information to add to our packet from what we've read. When nothing is added to the packet, we don't earn any points in daily reading.

MATH-All week we will be working with decimals. In addition, we will spend an extra half hour on facts each Tuesday, if we are not yet fluent with facts. Every Friday, we will spend some time working on Freaky Fractions and Friends. If homework is finished at home, we should spend twenty minutes in IXL. Beginning Thursday, August 18, we may come in at 8 am for an extra thirty minutes of math help.

SCIENCE/SOCIAL STUDIES- This week we will begin our first chapter in our science text. We can study the test found at the end of the chapter every day as we learn. We will finish our research on an Aztec, Mayan or Incan civilization and begin our travel brochure.

A NOTE FROM MRS. PARIS- This week in religion, students are asking a lot of questions and I am often directing them to ask these questions of you at home. If they aren't asking, then please ask them what they are learning about in religion.

This Thursday, extra math help is offered at 8:00 am. I will open the door beside our classroom at 8:00. It is a great help to be timely, in order to get the most benefit from this opportunity.

I am holding to hope that most of fifth grade is giving some time to math facts every day, every day, every day.

Should we start to build an ark do you think? Stay dry!
