## Faithful Navigators Message

Worthy Sir Knights,

What a wonderful month May has been for the Assembly. We participated, Sunday May 28<sup>th</sup>, in the "Tribute to Heroes Parade" at Lakewood Ranch Main Street. It is amazing that the Parade attendance seemed to double in just one year as the area continues to grow. We Sir Knights Marched in the Parade and gave out tootsie rolls, poppies, and candy to the children and others who attended. It is a great way to pay tribute to our Veteran Heroes, connect with the community, and represent the Knights of Columbus Assembly #3192 San Damiano of Bradenton, Fl. We had a good turnout of both Assembly and Council members. I looked forward to this event only getting bigger and bigger each year. On Behalf of the Assembly, I would like to give a special thanks to Sir Knight John Joly for organizing this most worthy event!

The Assembly was also very busy passing out Poppies at all Masses at Our Lady of The Angels and Holy Cross. Thank You, Sir Knight Gerry Hayes for leading the efforts at Holy Cross. We had a total on 26 brothers who volunteered at OLA alone to hand out Poppies.

The Poppies help us remember all victims of war, our commitment to peace, and to challenge the glamorization of conflict.

As we look forward to the month of June, the Assembly is excited to hold our Annual Flag Retirement at Holy Cross.

The Flag Retirement Ceremony will be held on Sunday, June 11<sup>th</sup> after the 11:00 am Mass at Holy Cross.

If you have a flag, or know of someone who has a Flag to be retired, and are not able to attend the event, please bring the Flag to our next business meeting or drop it off at the church office.

The month of June also brings our annual Officer Installation. The installation is planned for, Thursday June 22<sup>nd</sup>.

Last year we had a record number of brothers and wives attend. I expect this year's event to be just as memorable.

It has been an honor to serve as Faithful Navigator this past year. I look forward to next year. I hope and pray for greater accomplishments for Assembly 3192.

I pledge to do my best to serve the Assembly as your Faithful Navigator for the last year of my term.

Vivat Jesus

Faithful Navigator,  
Mark O'Brien

### **Member Bio Sam Bastinaelli**

Born in 1945 in Camden, NJ. Grew up on my parent's farm in Lindenwold, NJ. It was a truck farm as we grew Corn, tomatoes, potatoes, strawberries, lima beans, string beans, cantaloupes, and every vegetable you can think of. I have one brother and together with cousins from the city and local kids worked the farm from 6am until 9pm at night. We had two road stands, that's why we stayed open until 9pm. My parents were very successful farmers but was a lot of hard work.

I am a cradle Catholic as I went to St Lawrence grammar school, Camden Catholic High School, Villanova and Penn State. I love baseball and played baseball all through high school. But when I didn't make the varsity team at Villanova I had to decide on another career.

At Villanova I chose as my major Electrical Engineering and was a good selection. I received a master's degree from Penn State. But I continue my education by taking company sponsored education courses.

My first job out of Villanova was at Cape Kennedy where I ran the computers for the engineers that were launching the Lunar Excursion Module (LEM), Space Craft(S/C) and Saturn V Rocket to the moon. I was there for 3 years and then moved back to King Prussia right outside of Philly near Villanova.

The next event and best event in my life I met and married Mary Lee who lived but 12 miles from the farm. It is a story about how I remember her phone number. I had met Mary Lee on a trip home from working in the Cape. We have two daughters Jennifer and Sara and one Grandson Jordan.

My next move was to Boeing, where I worked for 35 years. I move into radar. We spent 6 years on Kwajalein in the Marshall Islands about 6 degrees above the equator in the Pacific Ocean. It was used for target practice by the AF for their ICBMs, and we play defense by tracking the incoming ICBMs. After that I moved back to Anaheim California where I was the Director of all radar for National Missile Defense. We the built largest X-band Radar in the world and made it movable to anywhere there is an ocean. I then moved to Florida 11 years ago. Mary Lee and I love it here and we have a lot of friends here.

On Kwajalein, I was always playing tennis and eventually became #1 on the island. In addition to softball, and running. Back in California I ran Marathons and the best I did was 3 hours and 53 minutes. I switched to golf just before we moved to Florida and have been playing or practicing almost every day. So, you see there isn't much about my religious life because there wasn't much.

But that changed in 1983. I am a born again Catholic. But with a Protestant perspective. I watched TBN and I learned the Bible scriptures and I had the Eucharist in the Catholic faith. I had the best of both sides. That is why when you say pray for you, I will pray for you right on the spot.

We have been to Marriage Encounter, Cursillo, been Baptized in Spirit, did Christ Renews His Parrish, been members of various Charismatic Prayer Groups. We took pilgrimage to Poland to learned more about Faustina, the Holy Land to see where Jesus walked.

Since we have been members of OLA I have been honored to be the coordinator of the Reader at all the masses, Honored to be coordinators of the Patriotic Rosary and I help coordinate the Men's faith Sharing every Friday morning at 6:30am. We are members of the Charismatic Prayer group on Monday from 7pm to 8pm.

## Facts About the U.S. Flag

1. Bernard Cigrand, a small-town Wisconsin teacher, originated the idea for an annual flag day, to be celebrated across the country every June 14, in 1885. That year, he led his school in the first formal observance of the holiday. Cigrand, who later changed careers and practiced dentistry in Illinois, continued to promote his concept and advocate respect for the flag throughout his life.
2. It is widely believed that Betsy Ross, who assisted the Revolutionary War effort by repairing uniforms and sewing tents, made the first American flag. However, there is no historical evidence that she contributed to Old Glory's creation. It was not until her grandson William Canby held an 1870 press conference to recount the story that the American public learned of her possible role. It has since been confirmed that Francis Hopkinson, a delegate from New Jersey who signed the Declaration of Independence, designed the American flag.
3. The lyrics of "The Star-Spangled Banner," America's national anthem since 1931, are taken from a patriotic poem written by Francis Scott Key after he witnessed the Battle of Fort McHenry during the War of 1812. His words were set to the tune of "To Anacreon in Heaven," a popular British drinking song.
4. In the 1950s, when it seemed certain that Alaska would be admitted to the Union, designers began retooling the American flag to add a 49th star to the existing 48. Meanwhile, a 17-year-old Ohio student named Bob Heft borrowed his mother's sewing machine, disassembled his family's 48-star flag and stitched on 50 stars in a proportional pattern. He handed in his creation to his history teacher for a class project, explaining that he expected Hawaii would soon achieve statehood as well. Heft also sent the flag to his congressman, Walter Moeller, who presented it to President Eisenhower after both new states joined the Union. Eisenhower selected Heft's design, and on July 4, 1960, the president and the high school student stood together as the 50-star flag was raised for the first time. Heft's teacher promptly changed his grade from a B- to an A.
5. Unlike setting an intact flag on fire, flying one upside-down is not always intended as an act of protest. According to the Flag Code, it can also be an official distress signal.
6. The Flag Code stipulates that the Stars and Stripes should not be used as apparel, bedding or drapery.
7. The practice of draping coffins in the American flag is not reserved for military veterans and government officials. On the contrary, any burial may incorporate this tradition.
8. Etiquette calls for American flags to be illuminated by sunlight or another light source while on display.
9. During the Vietnam War era, some demonstrators burned American flags as an act of protest. The Flag Protection Act of 1968 was enacted in response, making it illegal to burn or otherwise deface the Stars and Stripes. In two landmark decisions 20 years later, the Supreme Court ruled that the government couldn't curb individuals' First Amendment rights by prohibiting desecration of the U.S. flag. Respectful burning of damaged flags according to established protocol has always been acceptable.
10. When flags are taken down from their poles, care must be taken to keep them from touching the ground. In fact, the American flag should always be kept aloft, meaning that rugs and carpets featuring the Stars and Stripes are barred by the Flag Code.
11. When the flags of cities, states, localities or groups are flown on the same staff as the American flag, Old Glory should always be at the peak. When flags of two or more nations are displayed, they should be of equivalent size and flown from separate staffs of the same height.
12. The Flag Code strictly prohibits adding an insignia, drawing or other markings to the Stars and Stripes. Some American politicians have been known to defy this regulation by signing copies of the U.S. flag for their supporters.
13. Ever wondered how to correctly fold an American flag? First, enlist a partner and stand facing each other, each holding both corners of one of the rectangle's shorter sides. Working together, lift the half of the flag that usually hangs on the bottom over the half that contains the blue field of stars. Next, fold the flag lengthwise a second time so that the stars are visible on the outside. Make a triangular fold at the striped end, bringing one corner up to meet the top edge. Continue to fold the flag in this manner until only a triangle of star-studded blue can be seen.
