Stained Glass Window Update

In December we established this fund to repair the two large windows on either side of the Worship Center, as the sills were rotting. These windows are over 100 years old, they were moved here from our old church. We are pleased to say that we were able to raise the \$28,000 needed to repair these windows. The project was completed at the end of July. The

fund will remain open and we will continue fundraising, as we have many other stained glass windows in the Worship Center and the Gathering Area with the same issue. As we raise enough money, we will gradually work to repair each of the windows. If you would like to contribute towards this project, please mark your offering envelope "Stained Glass Window Fund". Thank you for your continued support!
