

WHY BUY FAIR TRADE?

Through Equal Exchange's INTERFAITH PROGRAM congregations, schools or offices can enjoy delicious coffee and chocolate products while helping small-scale farmers in Latin America, Africa and the U.S. build a better future for themselves and their families.

Through the project, farmers earn a fair price for their products, have access to affordable credit, and gain a long-term trading partner they can trust. As a result of the assurance of a fair price, farmers are able to produce shade grown coffee which is better flavored and better for the environment. The added income can be invested in education, health care and agricultural improvements.

100% of Equal Exchange's coffee and chocolate products are fairly traded.

Your purchase promotes social justice by lifting up poor families to a better life.

Various Coffees--Ground & Whole Bean Chocolate Bars Baking Chips Baking & Hot Cocoa
