

# Safe Environment

Every parish in our diocese must complete the Safe Environment program, Protecting God's Children, and then report our compliance back to the diocese. We have provided materials for you to review and then discuss with your child(ren) the safety items, which range from stranger danger for the littlest ones to internet safety for our middle schools to healthy relationships and boundaries for your pre teens/teens. Once you have completed the activity please sign the form below and return it in at your October session. If you need any assistance or resources please don't hesitate to call Mrs. Golinski at the office.
