V Suamico, CTH M  
Suamico River Bridge  
CTH M  
Brown County

Dear SAINT EDWARD & ISIDORE CONGREGATION OF FLINTVLE,

The Wisconsin Department of Transportation (WisDOT) and Brown County are proposing to replace the bridge on County M over the Suamico River. The primary purpose of the proposed project is to maintain continued access along County M by eliminating the structural deficiencies of the existing bridge, and to improve safety at the bridge.

It is proposed to replace the current bridge with a single span bridge in the same location. The new bridge will have one 12-foot traffic lane in each direction and 5 foot shoulders. The 5-foot shoulders will provide an accommodation for bicycle traffic.

This project was previously discussed at a public involvement meeting in June 2016 and is now moving forward into the design phase of the project. This letter is to inform you that the project is now currently scheduled for construction in summer 2021.

If you have any comments or would like to receive additional information regarding this proposed project, please contact WisDOT Project Manager Timothy Verhagen at 944 Vanderperren Way, Green Bay, WI 54304, phone (920) 362-1267.

Sincerely,

A handwritten signature in black ink that reads "Tim Verhagen".

Timothy Verhagen, P.E., PTOE  
Project Manager
