Mask Making Directives

W173 S7743 Westwood Drive
Muskego, WI 53150
262-679-1773

Per our insurance company, we need materials coming from **smoke free homes without any illnesses** (COVID-19, flu, strep, etc.)

Thank you for agreeing to be one of our *Mask-a-teers*!

- ♦ We must use lightweight, 100 percent cotton (*no canvas or duck cloth please*)
- ♦ Elastic (*any color*) **rope elastic, 1/8 inch or 1/4 inch only** (**only** sizes we can use)

Please launder the fabric in **UNSCENTED Laundry SOAP** and do not use fabric softener. Press material before cutting.

Patterns

Intermediate to advanced sewers (*you may need to add from your own supply stash*)

[Children's Hospital mask](#)

[St. Nicholas Hospital mask](#)

[Prohealth mask](#)

More simple patterns (the Deaconess) are below (*materials for the Deaconess masks can be procured through our group of Mask-a-teers*)

[Deaconess mask with elastic](#)

[Deaconess mask with ties](#)

We ask you consider praying over the masks as you are working with them—asking for health and well being for the unknown recipient

Prayer over masks as they are being assembled and processed:

Dear Lord,

Help the receiver of this mask to be protected from all disease and illness. May this person know Your infinite love every single day. In the name of the Father, The Son and the Holy Spirit ~ Amen.
