

TESTIMONIALS

"As a former student of St. Leonard and now a parent, it was important for us to give our children the benefit of a Catholic education. We feel the education they receive is exceptional and wholesome. They are taught to respect themselves, others and God. Being able to say prayers in school, and to celebrate and refer to Christmas and Easter in class is important to our family. We share the same beliefs and values as other school parents and it creates a sense of "family." We know our child is in good hands and being helped along by others in our School Family."

Don & Diane D.

"When we moved back to Muskego, we spent a lot of time discussing what we wanted to do when our kids reached the age to be in school full time. I grew up attending Catholic school and my husband went to public school. We both had good experiences; thus the discussion continued. As we talked about what we wanted in a school, the same thing kept coming up...we wanted a school that instilled the same values and faith that we have in our home. Because of this, the choice was easy when it came time for our first son to start school...it was St. Leonard. Sending our child to St. Leonard has been a wonderful experience. We feel part of a school community that is truly focused on providing our kids with the best education possible. We are proud to stay that we send our kids to St. Leonard."

Ryan & Jamie K.

"St. Leonard School has played such an important part in my life. As a graduate of St. Leonard, it has given me a great foundation and molded me into the person I am today. That is why my husband and I decided to send our children to St. Leonard School. I wanted the same faith-based education for them that I was so blessed to have. Not only am I a graduate and a parent, but I am a 2nd grade teacher here as well. I get to see first-hand the excellent, rigorous, faith-filled education my children are receiving. The teachers are dedicated to their students and enriching their lives academically and spiritually."

Kelly M.

"As I am journeying through high school, there are so many times when I'm thankful for my St. Leonard Catholic education. In my freshman English class my teacher used examples of mine, and other St. Leonard alumni's work, because we were so far ahead of the rest of the class. St. Leonard's teachings have not only affected my education, but also extra curricular activities. Out of the 12 leaders of student council, 9 of us graduated from St. Leonard, and 10 are parish members. This shows the great leaders that St. Leonard School has created. Most of all, St. Leonard has given me lasting friendships and has established a deep faith in God, which has carried me to remain active in the church and mission work. I cannot express my gratitude for all that St. Leonard has done for me."

Autumn R.

2012 St. Leonard graduate

"With high academic standards, St. Leonard School prepared me to assume personal responsibility for my education to which I attribute my accomplishments in high school and continued success in college. By pairing a strong curriculum with a foundation in Catholic Christian values, St. Leonard helped me develop not only intellectually, but also as an individual."
