**\*Algebra Students** – In addition to the items listed above \*students will use a TI-84 graphing calculator throughout this course. A class set will be provided, but it must stay at school, not be taken home. You may decide to purchase your child this device to use at home, but it is NOT a requirement. A purchase like this will be needed in high school and/or college, so it would be a worthwhile investment for your child’s educational career.
