Cursillos in Christianity is a movement of the Church that, through a method of its own tries to, and through God’s grace manages to, enable the essential realities of the Christian to come to life in the uniqueness, originality, and creativity of each person. In becoming aware of their potential and while accepting their limitations they exercise their freedom by their conviction, strengthen their will with their decision to propitiate friendship in virtue of their constancy in both their personal and community life.

The Cursillo Movement consists of proclaiming the best news of the best reality, that God, in Christ, loves us. Communicated by the best means, which is friendship towards the best of each one, which is his being person and his capacity of Conviction, Decision, and Constancy.

And what needs to be emphasized today, now, and immediately in order to be on the cutting edge of today’s debate is to facilitate and make possible for every person to encounter oneself always and absolutely essential in order to be able to encounter God and others.
