Columbarium Burial Niches

The Church of Saint Henry Parish Cemetery is please to offer you the option of choosing a columbarium niche as a burial option for cremation. Columbaria provide above-ground burial for cremated remains. The Saint Henry Cemetery Board currently offers columbarium niches for pre-need selection and purchase in one of the newest sections of the cemetery.

Construction

Columbarium construction materials consist of reinforced concrete with a durable polystyrene line and closure. The cabinet is completely clad in granite. The entire columbarium is 3 tiered with 8 rows of niches. The niche fronts are polished Carnelian granite. Niche trim is polished Rockville granite. Our first columbarium was installed in 2010.
