This foundation provides basic and quality education for the marginalized students in southern India. There are more than 300 million children who do not have access to go to school because of their poverty and family background in India. PEACE is trying to encourage and provide an opportunity for the children to go to school and get basic education. Right now, they are providing education for more than 2,000 children. Please be generous, as your means allow, to the missions.
