We are still working on School roof with a temp solution for \$125 to get us through the winter. Next spring we will have to look at it more. We have dehumidifier to use next year.

Things to look at: Check on school light north door and the leak in church window roof need to be checked.

Mike & Ray will check on first bids on Lubinski house for Rectory. It a good option and we could hook it to our church property. Another possibly is the lot across from the church parking lot.

Next meeting we will look at how much money is in each bank checking and CD, rate for interest etc.

We can only take masses for one year. We can give the family option of donating for a wish list. Nativity Set, a statue for the sick St. Peregrine, redoing vessels, purple cope.
