

Something new is coming to St. John's!

An exciting intergenerational movement is in the works at St. John's in Seymour!
Our youth are doing awesome things with their God-given gifts, and our church community would love to support them!

Please consider the activities that your child(ren) is/are involved with that allow spectators. We will be compiling schedules along with names of our parish's youth and making them available to interested St. John's members so that together we can pray for their success, attend their events, form new relationships, and celebrate our blessings as a parish community!

Watch for more information the first week of RE!

"The community of believers was of one heart and mind... and great favor was accorded them all." Acts 4:32-33
