NEWS

Proceeds from the DENNY FAHY MEMORIAL were used to purchase an AED (Automated External Defibrillator) for the school. An AED is a portable device used to administer an electric shock to the heart and restore the heart's normal rhythm during sudden cardiac arrest. The AED is located in an alarmed cabinet, just inside the south double door entrance on the Wade side of school (Entrance #3).

A total of 20 people were recently AED & CPR trained. This included all faculty & staff, some parish members & parents of St. James the Greater. All received the American Heart Association certification. We anticipate future training dates, should others be interested.

VOLUNTEER OPPORTUNITY

Throughout the year, volunteers are needed to assist with working various events and snack bar duties for games. We will post those upcoming dates and signup links as they become available.
