

## **MAP Testing Reminder**

During the weeks of September 17<sup>th</sup> – September 28<sup>th</sup>, your child will take a MAP Growth test from NWEA on a computer. We give students MAP Growth tests 3 times per year to measure academic growth throughout the school year.

MAP Growth tests are unique in that they adapt to your child's level of learning. If your child answers a question correctly, the next question is more challenging. If they answer incorrectly, the next one is easier. This results in a detailed picture of what your child knows and is ready to learn – whether it is on, above, or below their grade level.

Here are some helpful reminders to prepare for testing:

- Get a good night sleep so that your child is well rested.
- Eat a healthy breakfast.
- Remind your child to do their best on each test. The tests are untimed so they can go at their own pace.
- Remind your child to be proud of their hard work this year and the growth they have already made.
