PULLEY ENGINEERS

Grades 1-5

STEM Enrichment using LEGO® bricks for the 21st Century learner. Each {YEL!} STEM class follows four basic components: • Teach It!... Each class students are taught the basic STEM engineering concepts behind each project; • Build It!... Students use LEGO® bricks to build a street sweeper, racer and design their own egg beater. • Explore It!... Then they use that project to explore the basic engineering concepts - this session is focused on pulleys concepts. • Play It!... Finally they play with their project, modify it, create extensions and have fun working with it.
