

Presentación escrita

Para mantener la salud

Task

You are doing some research for your health class on good eating and exercise habits. Make a poster in Spanish with five suggestions for better health.

1 Prewrite Talk to classmates, teachers, the school nurse, and your parents about good eating and exercise habits, especially for teens. Then list their ideas under the following headings to help you organize your information:

- *Debes comer . . .*
- *No debes comer mucho(a) . . .*
- *Debes beber . . .*
- *No debes beber mucho(a) . . .*
- *Debes . . . para mantener la salud.*

2 Draft Write the first draft. Decide how to present the information in a logical way. Think about using visuals for clarity. Sketch them on your draft. Give the poster a title.

3 Revise Share your draft with a partner. Your partner should check the following:

- Have you communicated the five suggestions well?
- Do the visuals help convey meaning and make the poster attractive?
- Are the vocabulary and grammar correct?

Decide whether to use your partner's suggestions, and then rewrite your poster.

4 Publish Make a final copy, adding attractive illustrations or designs and making necessary changes. You might want to:

- post it in the nurse's office, at a local community center, or in your classroom
- include it in your portfolio

5 Evaluation Your teacher may give you a rubric for how your poster will be graded. You probably will be graded on:

- completion of task
- accuracy of vocabulary and grammar
- effective use of visuals

Strategy

Gathering information

Use information from a variety of sources to help you create a more complete presentation on a topic.
