

In spite of the two episodes of flooding and the continued threat of more rain, we are making progress with our CCD classes.

Kudos to all of our wonderful teachers who have adapted so beautifully to the change of location for their classrooms and the need to physically reorganize everything! Kudos to the Knights who set up the tables and chairs in the Family Life Center to accommodate our needs ...and to all the teachers who re-organized all of their needed resources.

As an example, our PRE-K teacher, Mrs. Terri Enevoldsen, moved her tables, chairs, and other necessary resources out of her classroom into the Christ Bearer's (Teen Group) Meeting Room after the 2nd flooding damaged part of her classroom. She also took a photo of her eager little students and has asked us to share the photo and following note sent by them:

"The Kindergarteners wanted to give a shout out to the Christ Bearers for sharing their classroom after the Kindergarteners

had to vacate their room due to flooding. They can't wait to be Christ Bearers!!"

Overall, you can see that we have received great help, support and active assistance from many in this parish of St. Christopher. We have watched outstanding evidence of VIRTUE being practiced by staff members, teachers and students. We have noticed kindness, perseverance, charity, patience, generosity, long-suffering and FAITH being put into action. All of this has demonstrated that our staff, teachers, Knights of Columbus and several parishioners are **living** what they believe. This makes it a joy to serve God in this parish! This has also inspired the DRE's to begin planning how to emphasize the PRACTICE OF VIRTUE into all that we do during the 2019-2020 CCD Class Year.
