

Haiti House #106 - Markenly Milord

Markenly Milord along with his sister Saadia, her husband and their two sons have been living in the place shown in the “Before” picture. They are children and grandchildren of the late Therese Antoine who originally lived here and who was one of the first staff members at the budding HMI compound, doing laundry while the HMI teams worked out of the little house by the Air Strip (“Aviation”). Mrs. Therese eventually had to stop working because of a bad case of diabetes which caused her to lose both legs before she eventually passed away. Markenly and Saadia continued to live in the deteriorating family house which was more seriously damaged by hurricane Matthew. This new home will be a wonderful blessing to this family.
