

## Haiti – House #108 – Clerisse Louis

**Pictured is Mrs Clerisse Louis with two of her grand children. She is a widow and mother of eight. In August 2017, she was living with a son and three grand children in the pitiful situation you can see in the “before” picture. Hurricane Matthew almost completely destroyed her house. Her health is poor as is her vision. None the less, she does a little farming to survive. In one of Fr. Joe's visits to the Kay en Ron community where Bec's Subdivision is located, he met with Mrs. Clerisse who was taking care of one of her grand children who is deaf and mute. (There are plans to send the child to a specialized center in PAP to be taken care of. God Willing, one day it may happen.) This beautiful new home will be a blessing to Mrs. Clerisse whose health will surely improve because of this new environment as well as help this impaired grandchild. Thanks to all who helped in any way to make this miracle a reality.**
