

Haiti - House #110 Jacqueline Pierre

Jacqueline Pierre is a 71 years old mother of 7. Until September 2017, she was living with two of her children and two grand children in the pitiful place shown in the “Before” picture. Hurricane Matthew in October 2016 further deteriorated what was already a very challenging existence. Mrs. Pierre survives off a little gardening that she enjoys doing and by some support that her children can provide. She regularly attends Sunday mass where she has been praying intensely that one day God could take her out of the mess she was in. That day has finally arrived. Thanks to all who made this miracle come true!
