

## Haiti - House #111 Marlene Jeudy

**Marlène Jeudy and Wilfrid Neptune, until September 2017, lived with their nine children in the crumbling dwelling that you see in the before picture that was made even more uninhabitable by Hurricane Matthew in October 2016. They are Catholics and attend Sunday mass regularly with their family. Wilfrid is a hard worker who does everything possible to take care of his family working as a brick mason, a carpenter and a farmer. Marlène, his wife, works very hard herself taking care of the house, cooking, farming and selling whatever they can produce extra from their garden. They have been praying very hard that God could help them get out of the terrible situation. Because of your kindness, their prayer has been answered. Thanks and may God Bless you.**
