

## Haiti - House # 112 Francois

**Yvonne and Jackson Francois have one 15 y/o son, Emerson, who goes to school at the Numero Deux Secondary school. Yvonne and Jackson do farming for a living with Yvonne usually taking what products they produce to the market in Jeremie to sell. As you can see in the before picture, by the condition of the place they have been living, things are very difficult as well as unsafe. They are active members of Our Lady of the Assumption parish where they have been praying fervently that God would one day help them to get out of this misery and into a decent house. Thanks to our kind donors, the miracle happened in October of 2017. Thanks to all who helped in any way to make the humble prayer of the Francois family a reality.**
