

## Haiti - House #113 Mercilla Appollon

**Mrs Mercila Appolon is a single mother with seven children. She lives now with 4 children and 2 grand children. One of her sons (standing on the left in the "Before" picture - James (Saykwam) - has a handicap from birth of his right hand). She has been struggling to feed the household particularly since hurricane Matthew. She does farming for a living. They are so happy and thankful that HMI will move them in the month of October 2017 from the pitiful situation in which they were having to live to a beautiful new house.**
