

House # 12 - Wislet Luc House

The Wislet Luc family was one of the first people we met when we began trying to help families in the isolated area between the Jeremie airstrip and the ocean. He was handicapped but was a very pleasant and helpful man. He showed us huts and families that were in very desperate need while he himself and his family were in almost the same situation. When the committee that chooses the recipients of houses chose the Wislet Luc family, everyone was very happy for them. One by one, HMI is making a difference in the lives of individual families in this area of Haiti.
