

Haiti House #120 - Lina Beauchamp

Lina Beauchamp is a 76 Year old grandmother. She had 10 children, eight of which are still living. This is one of her daughters who lives with and cares for her (Evelyn Dominique) posing for the picture with a granddaughter in front of the place they call home. (Mrs. Lina was in PaP at the time the “before” picture was taken receiving some necessary medical treatment.) There are a total of six grand children who live here with Mrs. Lina and Evelyn. Mrs. Lina used to do a little farming in order to take care of her family but her age and deteriorating medical condition has greatly reduced what she is able to do. This new home will be a blessing which will give her a much healthier environment in which to live the rest of her life in as well as provide a much better situation for her family. Thanks to all who helped in any way to bring about this miracle in her life.
