

## House # 13 - Madame Alourdes' House

**Madame Alourdes' is an old widow that has been living across the street from [Mr. Mathurin](#). This lady has been pleading with us to build her a house for many years. This year, one night during a driving rain, Dr. David Fakier who was directing the mission trip, sat up thinking about her and her situation. The next day the mission team visited her to inquire as to how she had done during the storm the past night. She showed them how everything in her hut was wet and that she had huddled in a corner to try to stay dry during the storm. That was all that was necessary for the funds to be forthcoming to present her with a new house. When Madame Alourdes was advised that she would in fact get a new house, she began screaming with glee, praising God and praising the mission team. God Bless the Fakier's , their daughter Rebecca Claire and all who continue to support these incredible initiatives to build houses, build hope and build lives by their support and generosity.**

**Madame Alourdes finds out about her new house!**

**Before**

**After**

**Mrs. Alourdes all dressed up in her Sunday best standing on the porch of her new house. She doesn't have to worry anymore about her and her belongings being all wet when it rains.**
