

Haiti - House # 131 Serge Vincent

Mr Serve Vincent is 74. He and his wife Dulia had eight children. Four of the children and two grand children live together with them in the place you see in the "Before" picture. All the family do farming for a living. Dulia is a very courageous and especially hard working woman. She seems to be never home, trying her best to work for a better life for her family. She has a little tent by the main road of Numero Deux where she sells fried items (Haitian fast food!) from early morning to late at night. This new home is an answer to a prayer and a dream come true that the family never believed could be possible. They send their appreciative prayers and thanks to everyone who helped to give their family a hand up and a new life!
