

## Haiti - House #143 Edner Despeines

**Edner Despeines and his wife, Laucita Nicolas, are hard working farmers. Besides selling some of their products from the farm, Laucita sells charcoal to help take care of their eight children and grand children. Edner is a very kind person who attends Mass regularly and despite his 77 year old age, continues to work hard. Mr. and Mrs. Despeines love their children very much and make great sacrifices for them. They have been living for too long in the terrible, inhumane condition that you see in the "Before" picture. Thanks to the kindness of HMI donors, they are now enjoying a better life for their children in a safe, secure new home. Be assured of their prayers and deep gratitude.**
