

## Haiti - House #149 Marie Claude Louis

**Marie Claude Louis (Mimose) is a 59 year old widow, mother of four natural children and one adopted child whose mother is her sister. The adopted child, who is now a young man, is mentally challenged. They are all hard workers, farming the land around where they reside to try to eke out a living. The existence had always been challenging but since Hurricane Matthew in October 2016, (as you can see in the Before picture), the challenges have been greatly compounded. They are faithful Catholics who come regularly to church, always praying that God would one day grant their prayer to finally have a decent place to live. Thanks to our donors and in memory of Alex Michael Vedros, in April 2019 the miracle has finally happened.**
