

## **Haiti - House #160 The Berlius Neptune family**

**The Neptunes have ten children. They live with eight of them in this little, heartbreaking, pitiful place you see in the "before" picture. Mr. Berlius is a very hardworking, courageous man who has farmed all his life. Even though he has not been enjoying good health lately, he doesn't complain and continues to work as much as he can. His wife helps him a lot with the farming and raising the children. She also is very good at making charcoal which she sells to help feed the family. Although the Neptunes are another faith persuasion and not members of Our Lady of the Assumption parish, they are very kind and readily collaborate with the church community whenever asked. It is with great pleasure that the HMI selection committee were able to bless this family with a new home in August, 2019. Mr. Berlius, his wife and all their family send their assurance of prayer and appreciation for this miraculous gift.**
